REASONS FOR ALLOWANCE

Claims 2-4 and 6-40 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's amendment filed with the RCE overcomes the prior art rejection based on Kameshima. In particular, the prior art (and in particular Kameshima) fails to teach the combined method steps recited in independent claim 24, and in particular the combined steps of calculating an energy consumption projection based on weather data; comparing said energy consumption with said energy consumption projection; and determining refrigeration system performance based on said comparing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.
